ONSITE YKIDS SCHOOL OUT DAYS:
OTT FAMILY YMCA
401 S Prudence Rd. Tucson, AZ 85710
7:00am – 6:00pm
The YMCA of Southern Arizona’s Before & After School program expands learning beyond the classroom. Children are celebrated for their uniqueness and provided with multiple opportunities for growth and development through a variety of activities.

Children are natural-born engineers, who tend to be fascinated by building things and taking things apart to see how they work. Our goal is to expand on their learning by emphasizing the engineering design process which is a methodical approach to problem seeking and encourages children to start by asking a question, imagine the possibilities, plan a course of action, execute the plan and then brainstorm how to improve.

Though often affiliated with just science and math, the engineering design process can be applied to meet a variety of child interests. The following 9 exploratory components will be integrated into the program throughout the school year: 21st Century Skills, the Arts, College and Career Readiness, Family and Parent Engagement, Global Learning and Inclusion, Health and Wellness, Academic Enrichment, Leadership Development and Service Learning. Homework assistance, snack and physical activity are provided daily.

We aim to create an inclusive environment at each of our sites that supports self-confidence, encourages creativity, emphasizes team work and develops future leaders.

YKids

YKids is a full-day program we offer when school when school is not in session! Don’t let your kids miss out on the social enrichment, peer interaction, and physical activity the Y is known for. These days away from school will be filled with day-camp-like activities, crafts, STEM, team building and more. Due to inconsistencies in school district closures, we may have to cancel programming at certain locations due to low enrollment.

For more information please visit: www.tucsonymca.org/ykids

- Daily attendance and tiered pricing structure allows for affordability and flexibility with your schedule.
- The program will be offered at most locations with limited registration windows.
- You can opt into only the days you need
- Registration will open at least one month prior to the start of the program.
- Program fees are non-refundable.

If you receive DES, please contact our office to register for any licensed programs.
